

PSV EINDHOVEN SINCE 1913

THE PSV STORY

Our story begins in 1913.

Founded by Philips to take care of its employees.
Providing entertainment, relaxation and vitality.

Over the years we've developed from a small team of
factory workers to a world-class football club.

It's a story of unity. Because unity makes strength.
Standing side by side, making the impossible possible.

A story of hard work and pride. Of loyalty. To our fans.
To the city. To the ones that stood by us along the way.

A story of outsmarting the competition to create the
future.

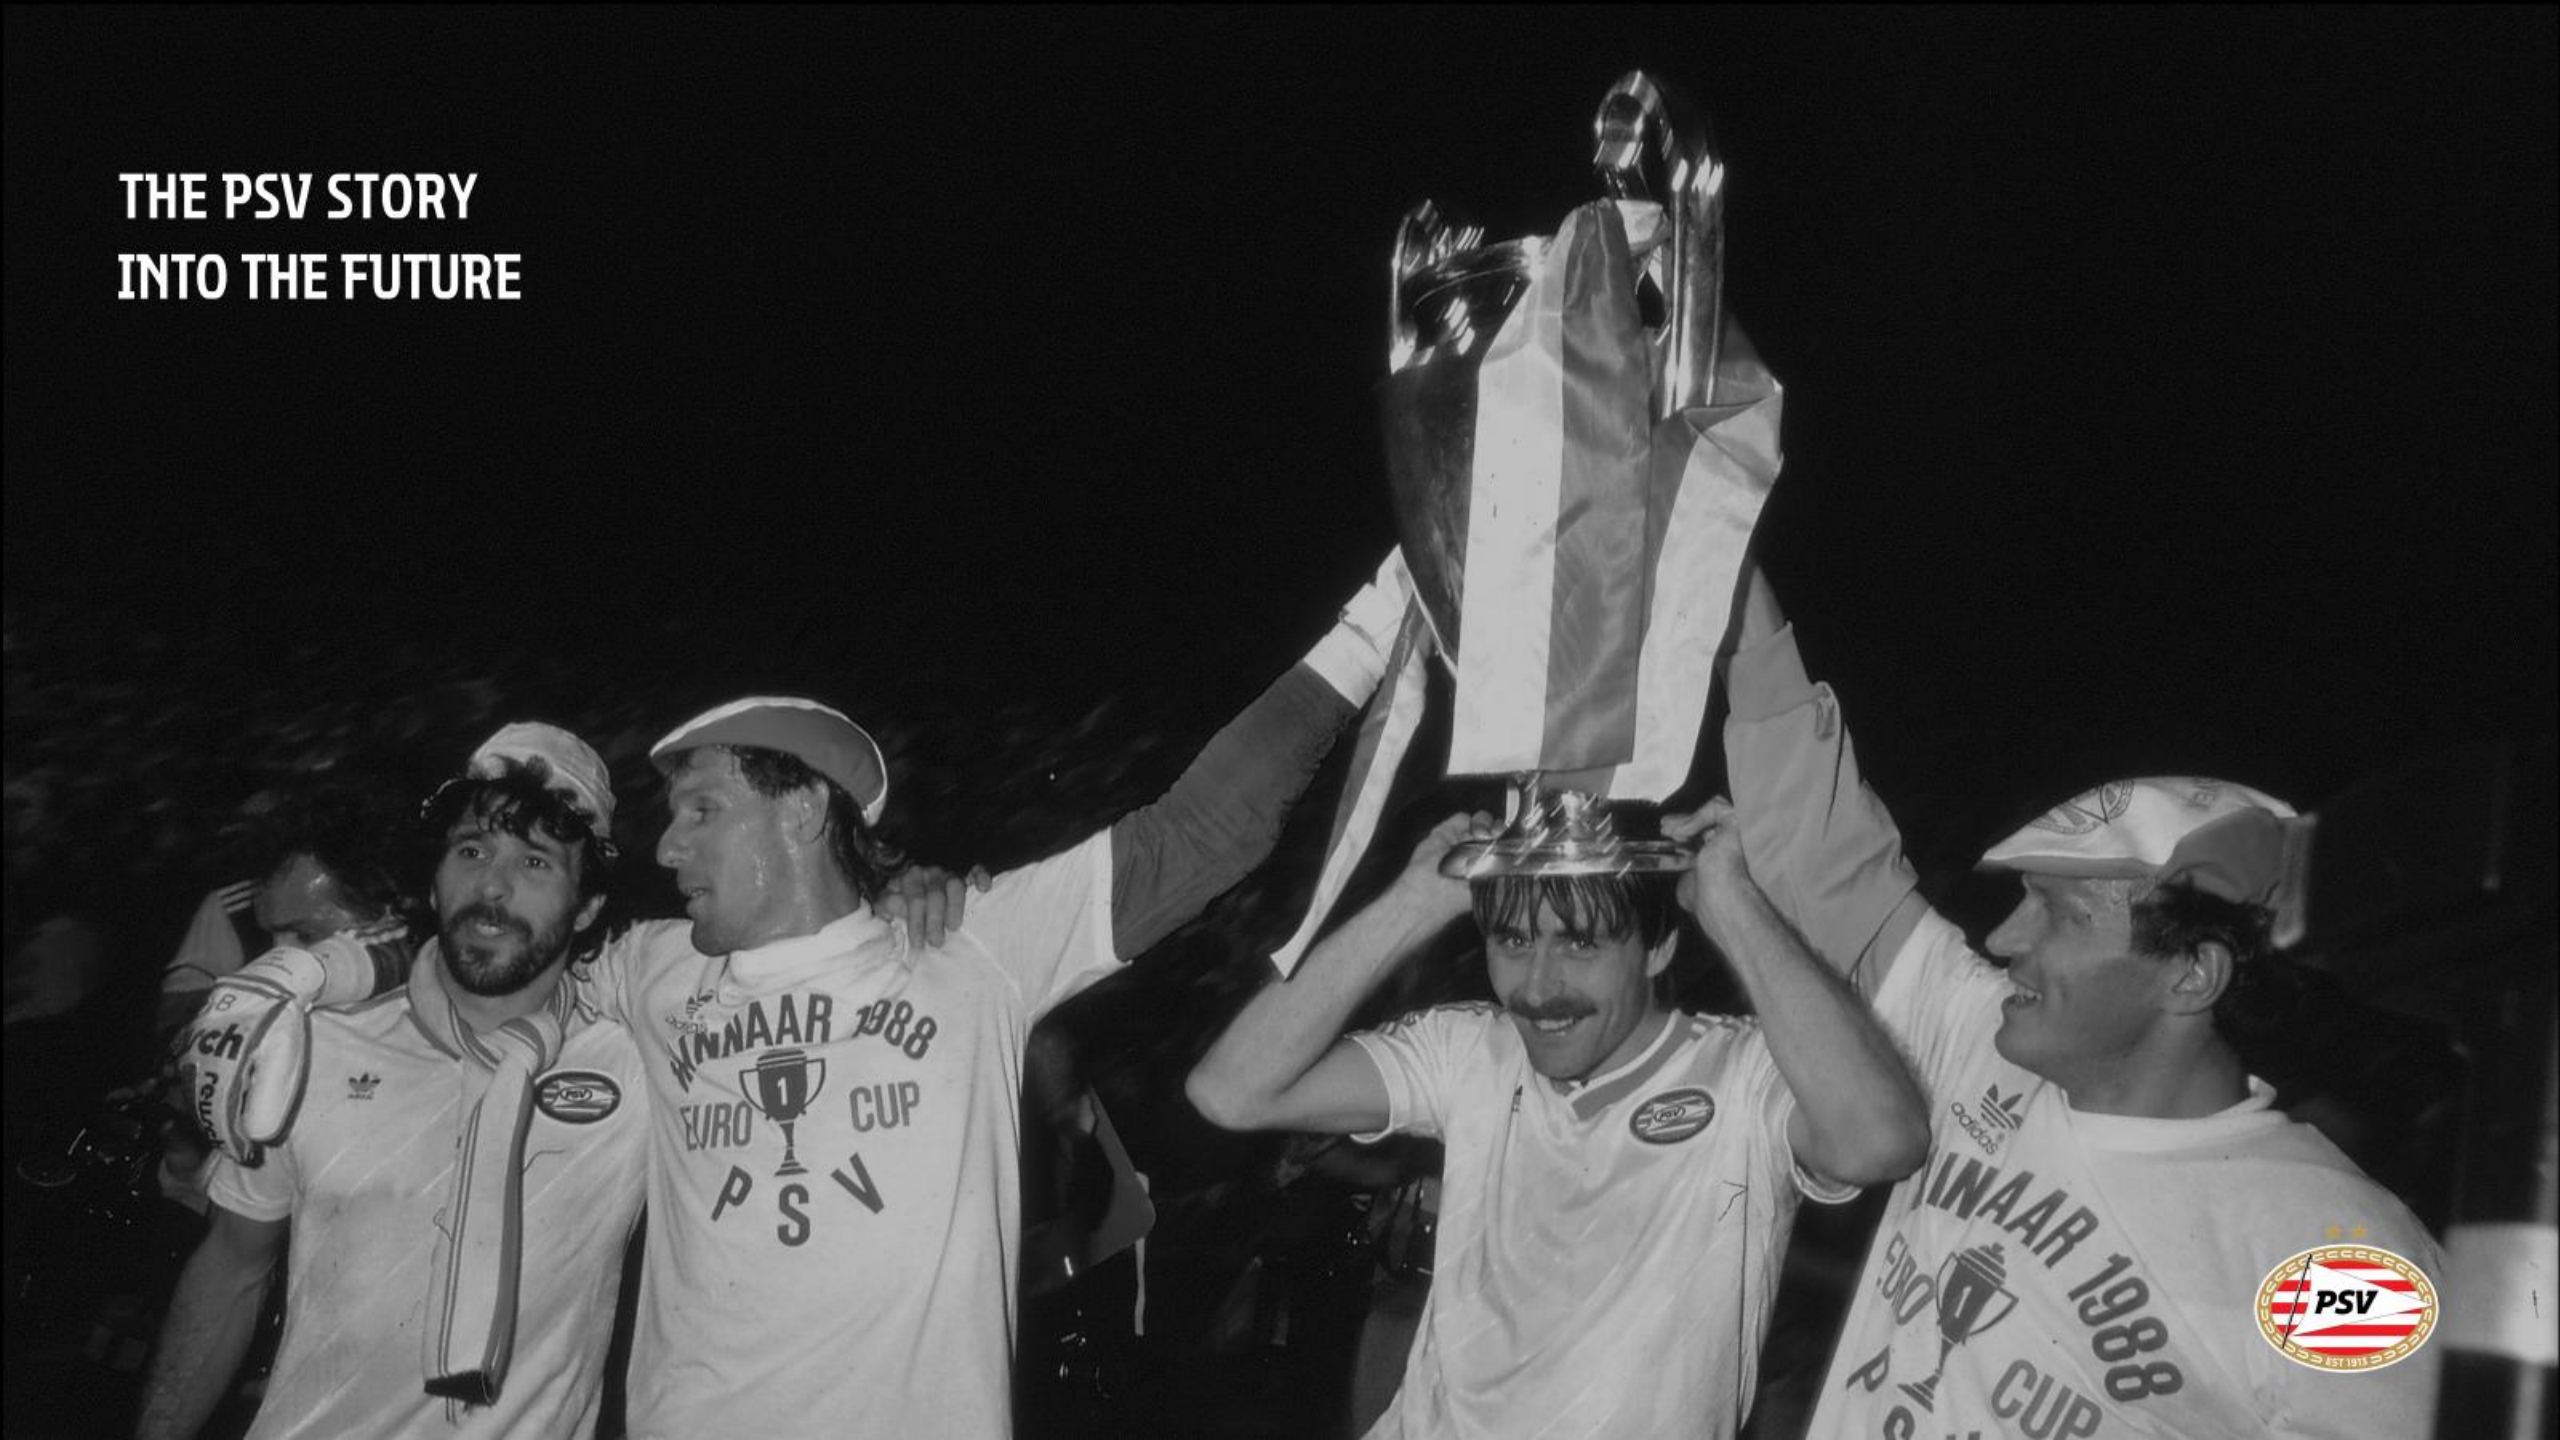

Of always shooting for the stars.

THE PSV STORY
LOOKING FROM THE PAST...

THE PSV STORY
INTO THE FUTURE

OUR VISION: CREATING STARS TOGETHER

FANS & FOLLOWERS

**MAKING
EVERY
FAN A STAR**

Our fans are the greatest. They deserve the best. With customized content and personal interaction — in stadium and online — we'll expand our traditional fan base to engage a more diverse international audience. And make everyone feel like a star.

PARTNERS & SPONSORS

**TREATING
OUR PARTNERS
AS STARS**

Our partners make it all possible — on the hoardings and behind the scenes. We'll work together with tech companies in the Brainport region to build valuable partnerships that allow them to gain insights from our data, showcase innovative technology, and engage with fans.

PLAYERS & STAFF

**TURNING
PLAYERS
INTO STARS**

Our players are resources that grow and build value. Smart scouting and innovative training technology strengthen our talent pool and reinforce our position as a 'springboard to the superclubs'. We also give up-and-coming young teammates the platform to develop their personal brand, engage with fans, and build star power.

EMPLOYEES & VOLUNTEERS

**MAKE
EMPLOYEES
FEEL LIKE STARS**

Stars aren't just born, they are created. Our employees are the beating heart of the organization. They are the ones connecting all stakeholders and will let them feel like stars. And only happy employees can make happy customers.

THE OPPORTUNITIES AHEAD

1.

THE REIGN OF THE SUPERCLUBS

A small group of superclubs dominate the race for revenue, while the rest struggle to stay relevant in their shadow. Man U, Barça and the rest could be seen as partners — if we build on our expertise in developing young talent.

2.

THE ENTERTAINMENT REVOLUTION

Digital transformation in the entertainment industry brings exciting new opportunities — if we can stand out in the crowded landscape of interactive apps and AR/VR experiences, all competing for the attention of the next generation.

3.

THE RISE OF SPORTS TECH

Cutting-edge technology in fitness and sports performance attracts and develops talent — if we demonstrate a commitment to lead and innovate in this field.

4.

THE HOME OF INNOVATION

Eindhoven is the heart of the Brainport region, Europe's Silicon Valley. Opportunities for innovation are all around us — if we take part in the innovation ecosystem through long-term strategic partnerships.

AND THE VALUES THAT GUIDE US TO CREATE STARS IN A TOP-LEVEL SPORTS CULTURE

1

**PERFORMANCE
FOCUS**

2

HOSPITALITY

3

RELIABILITY

4

**SOCIAL
ENGAGEMENT**

5

INNOVATION

LESSONS LEARNED: GUIDING PRINCIPLES

LESSON 1

STRATEGY OWNERSHIP

Fulltime responsibility to protect the long-term vision in relation to short term priorities.

LESSON 2

DATA IS THE NEW GOLD

Create new revenue streams and make the right decisions for key strategical decisions by collecting data from fans & followers, players, partners & sponsors and analyze this by using algorithms.

LESSON 3

SPEED AND AGILITY WINS

Work on an agile way to launch a minimum viable product (80% of the solution) which reduces the risk of unnecessary investment.

LESSON 4

GET OUT OF THE STADIUM

Test new ideas with stakeholders: fans & followers, players, partners & sponsors. There is a contact moment with stakeholders every 2 weeks.

LESSON 5

IF IT WASN'T MEASURED, IT DIDN'T HAPPEN

Test new ideas as soon as possible and quantify the success of an experiment based on predefined KPIs.

LESSON 6

LEVERAGE THE POWER OF THE ECOSYSTEM

Make use of the existing facilities, knowledge and competences of others within the Brainport Eindhoven ecosystem.
